FAUX LEATHER TRIANGLE FRINGE EARRINGS

MATERIALS:

Faux Leather (2 colors)
2 - Triangle Link Jewelry Findings (17.5 x 20mm)
4 - 4mm Jump Rings
2 - Ear Wire Findings
Sharp Scissors or Craft Knife
1/16" Hole Punch or Awl
Jewelry Pliers

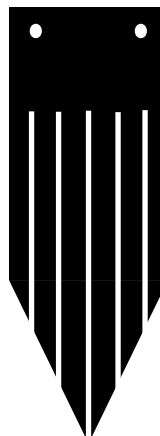

INSTRUCTIONS:

Cut out the two templates below, and trace the outer shapes onto the back of faux leather, or cut faux leather around the templates. Cut two pieces of each shape.

Neatly cut fringe into the two longer pieces, leaving about 1/2" uncut at the top. Then stack a smaller piece on top of the larger piece, matching them up at the top. Evenly punch a hole on either side. Repeat with the remaining two pieces.

Insert jump rings into each side of the stacked leather, also attaching to either end of one side of the triangle findings. Attach an ear wire to the top of each triangle finding. Enjoy!

TEMPLATES:

See ORCHIDandOPAL.com for the free video tutorial, and links to materials.
